

The Rookery Medical Centre - Private Reports & Chargeable Fees

The NHS provides most health care free of charge. However there are a number of other services for which fees can be charged. These are mainly for services not covered by the NHS, such as medical reports for insurance companies.

The table below lists the Charges that this practice applies. In order to be fair to all patients, there are no exceptions to the charges. These need to be paid in advance or at the time of receiving the service. We can accept credit or debit cards for payment.
